

## Drill rig SBN 502 for natural stone and ceramic

### Product description

Stationary drilling machine for to drill undercut holes into Natural Stone panels and Ceramic Tiles for fischer FZP-Anchors. Machine is designed for volume production.

### Advantages

- Easy to operate
- Economically production of undercut holes, drilling modules can be operated simultaneous
- Versatile use

### Technical details

- Solid frame with collect pan
- Multi-directional table rollers for smooth move of panels
- Drill heads continuously adjustable in the direction of the traverse beam
- Drill heads with drill hole depth stoppers and undercut mechanism
- Water / electricity are automatically switched on / off when the drill head is activated / deactivated
- Diamond drilling technique
- Spray-head for panel and machine cleaning

### Technical data
